

## **Thing for You**

**Fate has come to call on you  
Left it's card in the crack of your front door  
And when you get home it falls to the floor  
Forgotten evermore  
Swept under the rug with all of the dust  
Of the life that you ignore**

**I got this thing for you  
No matter what you say or do  
It's almost independent of you  
Like a toddler learning to walk on his own two  
I got this thing for you  
Like a wish left hanging on a star  
It's impossible, but I can't resist the draw  
I got this thing for you**

**Love has come at last  
Straight on through to the museum of your past  
And when you walk through, as you so often do  
You know it's all there for you  
Exhibits of pain and heartache in frame  
Lit by the isolating light of hope**

**I got this thing for you  
No matter what you say or do  
It's almost independent of you  
Like a toddler learning to walk on his own two  
I got this thing for you  
Like a wish left hanging on a star  
It's impossible, but I can't resist the draw  
I got this thing for you**
